## TRAIN CREW KEPT IN FEAR

Peter Ryan Pulled a Big  
Forty Five at  
Connersville.

Arrested In this City—Two  
Other Men in the Spree  
Get Away.

Peter Ryan an iron worker employed at the I. & C. power house, was arrested about midnight last night in Conroy's restaurant on Main street, by Policemen Price and lodged in jail.

Sheriff King and the city police received word from Connersville that two drunken men had caused quite a commotion at the C. & H. & D. depot in that city, by drawing guns on a railroad conductor and running people about. As far as is known no shots were fired in Connersville, but one of the breakmen on a freight that had stopped at the station there was driven to cover, and the drunken men took possession of the train. The train men tried to arm themselves and put the men off but they were held at bay by the men who were intending to force a ride to this city. As the freight upon which the men were riding passed No. 93, an east bound freight, one of the drunken men fired several shots through the caboose. The drunken men retained control of the train until it arrived here. Sheriff King, had in the meantime deputized several men and was awaiting its arrival. The two however jumped from the train in the east part of town. One of them a man named Combs got away. Ryan came down town and was found in the restaurant. He was badly intoxicated and was acting in a quarrelsome manner. When searched by Policemen Price, he had a 45 caliber Colts revolver of the pattern used in the United States Army in his pockets. The gun was about a foot long. He also carried two bottles of beer. He offered no resistance when arrested.

This morning Ryan was taken before Mayor Hall to whom he pleaded guilty and who assessed a fine of \$25 and costs, amounting to a little over \$42, against him. The fine was paid and the man was released.

## REP. WATSON IS DISGUSTED

Takes Another Rap at Civil  
Service—Seeks Reward  
For Faithful.

A Washington despatch to the Indianapolis Star says: "Representative 'Jim' Watson is disgusted over the way in which appointments are sewed up by civil service in the District of Columbia.

"I have nearly walked my legs off trying to get jobs for a couple of constituents during the last few days," said he. "I simply can't make any headway. It's a pretty howdodo. The boys who work in the trenches, who make it possible for the Republicans to carry this country, can't even get a look in when it comes to distributing the places. Eventually if this thing keeps up, the boys will cease to be interested in politics, and that will be a sorry day for the country."

Of all the peoples of Europe, the French have the fewest children and the Irish the most. The average French family numbers 3.3 persons and the average Irish family 5.2. In England the average is 4.8.

The private secretary of the Empress of Japan is a Christian woman and a member of the Congregational church.

John Burns' famous declaration that no man is worth more than \$2,500 a year, is to be found in Macaulay's history.

## FEAST OF PENTECOST

Descent of the Holy Ghost on the  
Apostles—Origin of the Vigil  
of the Feast.

Next Sunday is the feast of Pentecost, when the descent of the Holy Ghost on the apostles, prophesied by the Savior to occur fifty days after his resurrection, is celebrated in Catholic churches. Saturday is the vigil of this great feast, which means that it is observed as a day of fasting and abstinence. Christmas, Easter, the Assumption of the Blessed Virgin and All Saints are other feast days that have vigils as Pentecost has. In the early post Apostolic days these vigils were celebrated beginning in the afternoon of the day and continuing during the night, the services consisted of reading of the Scriptures, reciting prayers and reception of the Holy Communion. The celebration of Mass was begun about midnight of the vigil and at the conclusion of the mass the recitation of the prayers continued until sunrise when the celebration of the feast began. This is the origin of the vigil.

## DEATH OF MRS. DELILAH WEBSTER

Rushville Lady Dies at Kennedy  
Hospital in Shelbyville—  
Funeral Sunday.

Mrs. Delilah Webster, of this city was taken to the Kennedy hospital at Shelbyville, Thursday morning that she might undergo an operation for tumor. The operation was performed Thursday afternoon and she died a short time after it was performed. There was but one hope to save her life and that lay in an operation. She had waited too long it is said and death was the result. The remains were taken to the home of Thomas Webster, in Shelbyville, Thursday evening. Those who accompanied Mrs. Webster to Shelbyville were her sons, David H. Webster and Samuel Webster, and daughters, Mrs. Marshall Bass, of Morristown, Miss Carrie Webster and Mrs. Clara Dagler.

The remains were brought to Rushville at 10 o'clock this morning and funeral services will be held in the Christian church here at 2 o'clock Sunday afternoon conducted by Rev. W. W. Sniff. Mrs. Webster would have been 55 years of age had she lived until Sunday.

## TRICK BICYCLISTS ENTERTAIN CROWD

"Rube" Shields and Harry  
Fowler on Trip Around  
the World.

Two trick bicycle riders, giving their names as "Rube" Shields and Harry Fowler, and their residence as San Francisco, Cal., entertained a crowd of three hundred people on Second street, east of Main, this morning between 10:30 and 12 o'clock, with some clever stunts on the bicycle. A collection was taken up.

"We left San Francisco about eight weeks ago," Shields said "on a trip around the world. We came through Los Angeles, out through Arizona and Texas, and over into Florida and then North, from there. We will be in Rushville for a couple of days."

Consul Milner reports that 80 per cent. of the laces manufactured in Calais, France, are exported to the United States, the value of which averages \$6,000,000 annually.

Four thousand workmen are employed in the manufacture of straw braids and hats at Florence, Italy, writes Consul Quay, and eighty thousand women and children devote their spare time to braiding and plaiting.

## ANARCHISTS WERE PRESENT

Bomb Thrower Turns Mad-  
rid's Rejoicing Into  
Scenes of Awe.

Petard Intended For Alfonso and  
His New Made Bride Slays  
Many of King's Escort.

Madrid, June 1.—The public rejoicings over the marriage of King Alfonso and Princess Victoria had a terribly dramatic sequel late yesterday afternoon, when a bomb thrown from an upper window exploded with deadly effect near the coach occupied by the king and queen as their majesties were returning from the church. Providentially, King Alfonso and Queen Victoria escaped by an electric wire deflecting the bomb, but at least sixteen persons, most of them of the personal and military escort and the others spectators, were killed. Many others were injured. The following are the killed:

Captain Barrosa, commanding part of the king's escort; Lieutenant Rey-sient, Lieutenant Prendergast, six soldiers; the Marquise of Colosa; his daughter; Don Antonio Calvo; his niece, aged six years; Jose Sola, seventy years old; Luis Fonseca; one royal groom, who was leading a horse drawing the coach carrying the king and queen. Several of those killed were standing on the balcony of the house from which the bomb was thrown.

The explosion occurred just as the royal couple were about to enter the palace. The route of the cortege had been diverted from Arsenal street to Mayor street, owing to the popular desires. The procession had just passed through Mayor street and was about to turn into the esplanade leading to the palace, when an explosion shook the buildings in the vicinity, stunning a large number of people and throwing the cortege into extricable confusion.

The royal coach was brought to a sudden stop by the shock, officers and soldiers of the escort falling to the ground about the querry and horses that had been killed. The screams of the terrified multitude mingled with the groans of the dying. It was immediately seen that the royal coach was intact except as it had been damaged by flying splinters. King Alfonso immediately alighted and assisted Queen Victoria out of the carriage. They then entered another coach and were driven swiftly to the palace.

A Scene of Horror.  
The scene in the vicinity of the explosion was horrible. As the municipal guards hastily improvised litters to bear off the mangled corpses, dense crowds pressed in upon them, causing indescribable confusion. Soldiers occupied all the streets leading to the locality, making it almost impossible to reach the spot from a distance. The bomb was thrown from above, striking the ground and exploding not far from the royal carriage. One of the officers of the king's escort and two soldiers were killed and one of the horses drawing the royal coach was killed, while the injured numbered scores. The bodies of many persons were terribly torn by the force of the explosion.

The news of the attempted assassination spread throughout the city with great rapidity, turning the rejoicings of the populace to awe. The telegraph offices were invaded by struggling masses, but a rigid censorship was instituted.

The explosion would not have occurred if the cortege had followed the route originally planned, but returning it was determined to retrace part of Mayor street and give the people a further opportunity to observe the pageant. It was in front of No. 88 Mayor street that the bomb was exploded. This is within half a block of the esplanade leading to the royal palace.

The bomb, which was concealed in a bouquet, was of polished steel, half a centimeter thick. It was thrown from a third floor window. The house, according to some reports, belongs to the queen mother, being the only house she owns in Madrid. The house is opposite the church of the Sacrament and the captain general's residence. The royal procession had come to a temporary stop with the royal coach exactly opposite the house when the bomb was thrown. It fell to the right of the royal carriage between

the hindmost pair of horses and the front wheels, and the explosion killed two horses and a groom. The Duke of Sotomayor, who, riding on the right hand side of the carriage, was slightly wounded, and four of the soldiers who lined the route followed by the cortege, were killed.

The place from which the bomb was thrown is a boarding house. The chamber from which the missile was hurled was taken May 22 by a man from Barcelona giving the name of Moral. When the police surrounded the house the man attempted to flee, but was captured. Another man escaped over the roofs of houses.

## JUVENILE STRIKERS RETURN TO WORK

Brick Cleaners at Old School  
Building Promised Increase  
in Pay.

A majority of the juvenile strikers at the ruins of the old First Ward school building, where they were employed at cleaning and stacking brick and who were out yesterday returned to work today. They demanded \$1.35 per thousand for cleaning the brick but agreed to accept \$1.25 next Monday morning. The strike was at its height yesterday afternoon when the strikers would let no "scabs" go to work. Some of the boys who continued at work after the strike were forced to join the strikers.

## WATSON WILL BE CHALLENGED

Rev. Kuhn Has Decided That  
He Really Wants Demo-  
cratic Nomination.

[Special to the Daily Republican.]  
Greenfield, Ind., May 31.—The Democratic congressional convention, in this city, Saturday, will attract party leaders from different parts of the State and particularly from the Sixth district. It is the evident purpose of the party to place a strong congressional ticket in the field, and the Sixth will be no exception, despite its overwhelming Republican majority. The Rev. T. H. Kuhn, of Richmond, a popular minister of the Christian church, will be the nominees. It is generally conceded he is the strongest man in the district to be pitted against Congressman Watson, who was recently nominated by his party for his fifth term. It is believed that Mr. Kuhn, immediately following his nomination, will challenge Mr. Watson to a joint debate of political issues. If U. S. Jackson, of this city, has his way in the convention, William Jennings Bryan will be endorsed for the presidential nomination.

## "WHERE IS MAUD?" ASKS CIRCUS MAN

Mule, Which Does High Kicking  
Stunt in the Van Amburg  
Circus Disappears.

Thursday's Shelbyville Republican says: "The trick mule of the Van Amburg circus disappeared last night after the show. The mule, which has straying propensities, similar to those of Maud, did its high kicking stunts in last night's performance and since that time has not been seen. A deaf boy had charge of the mule, and while taking it to the cars, to be loaded, it broke away and kicking its heels high in the air, disappeared in the darkness. The boy hunted for the mule for some time, but getting disgusted gave up the search and went to sleep.

This morning the loss of the mule was reported to E. S. Steele, the press agent of the show, and he, in the guise of "Si" started on the mule's trail."

## HE MAY BE IMPEACHED

Mayor Bidaman, of Terre  
Haute is in Grave  
Danger.

Discussion is Being Made of  
the Fate of Mayor Lyons  
When He Takes Office.

Terre Haute, Ind., June 1.—The prosecution in the impeachment of Mayor Bidaman is getting some encouragement in a quiet way, and there is a report that the necessary sixth vote is now promised to effect the removal of the mayor tonight. It is supposed that of Councilman Neukom, Republican, and will thus array the entire Republican strength of six against the party's mayor, leaving the three Democrats in the council to vote to acquit him.

Members of the Manufacturers' club, whose committee inspired the former impeachment proceedings, and which club paid the expense of bringing John S. Duncan here to conduct the prosecution, have been conferring with the councilmen who wish to remove the mayor. President Reading of the club has written a communication to a local newspaper criticising its statement that the present proceedings are "unnecessary and undesirable." He asks that "policy and politics" be left out of consideration.

If the six votes are cast against him tonight, City Controller Buckingham will perform the duties of the office for the three months remaining of the term. No one can speak authoritatively for Buckingham as to his policy in the matter of the enforcement of the laws. It is a campaign year, and there will be sharp contests over several county offices. The excitement and closeness of the county campaign is borne in mind as to the policy of Mayor Lyons toward saloons, gambling, etc., after he takes office in September. If the Republicans find that use is being made of this influence to help the Democrats on the county ticket it is almost a certainty that the Republicans in the city council will try to remove him a short time before election day. Part of the appeal in behalf of Bidaman is due to that apprehension for Lyons.

## FOR BENEFIT OF SCHOOL LIBRARY

Play Written by Denning Havens  
to be Presented at Opera  
House.

Denning Havens, son of Mr. and Mrs. Homer Havens, who has often taken part in home talent plays, has written a comic operetta which will be presented at the city opera house within the next two weeks. The play is entitled "Manhattan Isle" and is said to be very clever. The cast which is to present the piece is now being rehearsed. The proceeds of the play will go toward replacing the high school library which was destroyed in the recent fire.

Rushville people will be afforded an opportunity to see some good sham battles soon for the National Guard of Indiana will hold its annual encampment at Fort Benjamin Harrison, August 15 to 24, subject to the approval of the war department at Washington. It had been ordered by Governor Hanly that the encampment be held from July 18th to 27, and an order to that effect had been forwarded to all the companies of the National Guard in the State, however, at the time it was issued there was uncertainty as to the plans of the government with reference to the general camp of the regular army at the fort, and this uncertainty has existed until now. The regulars will also be there, to the number of about 1,700, some of them leaving their stations about the middle of July and marching from 100 to 200 miles.

## HISTORIC CANNON

To be Located Permanently  
on the Batesville Fair  
Grounds.

This historic gun passed through the Civil war, was abandoned at Bull Run July 21, 1861, was brought off the field by the 27th Pennsylvania regiment, commanded by Col. Earnstein. It was again captured by General Jackson at Chancellorsville, May 3d, 1863, but was re-taken by General Dan Sickles in the same battle at 11 p. m. of the same day. It silenced four Rebel guns at Round Top Mountain, Va., Oct. 9th, 1864, and was the only gun in a battery of six guns that was not dismounted by Rebel gunners near High Bridge, over Appomattox river, April 7th, 1865, every horse in the battery being killed.

The gun is now owned by Mr. Ober-ting, of Lawrenceburg, Ind., and was bought of one Bonnerman, of New York, a dealer in military goods, the price paid being \$675.00.

For further information concerning this historic gun of the great Civil war in the United States, inquire of any member of the Annanias Club any day at the Sheriff's office, or the engine house.

## ATTRACTING ATTENTION

Is the Kelso Case at Conners-  
ville—The Plaintiff is  
Pretty.

Thursday's Connersville News says: The Kelso damage case, which when in court here several months ago, attracted much local attention came up for a hearing again today, and the work of securing a jury was in progress this forenoon. In this suit Mrs. Grace Kelso, a rather handsome young brunette, seeks damage from her mother-in-law on the alleged ground that the latter had alienated her husband's affections.

The attorneys in the case are Nickin & Robbins, of Greensburg, and McKee, Little & Frost for plaintiff and Watson, Titsworth & Green, Reuben Conner and A. J. Ross.

The selection of a jury was not concluded until 3:10, when Mr. Robbins began his address to the jury in behalf of the plaintiff.

## NOTORIOUS WOMEN ESCAPE THE POLICE

Gang in Old Cemetery Flee  
Before the Arrival of  
Officers.

Last night about 8:30 Policeman Pea received a tip that two notorious women, from Indianapolis and another from Milroy, together with several men and boys, were located in the old cemetery along Flatrock at the foot of Jackson street. The policeman and marshal planned to raid the gang and went to the cemetery but some one had preceded them with the information that the police were coming and the women had skipped. The police searched for them until a late hour but could get not trace of them. While going through the cemetery Policeman Pea fell into a large hole and came near injuring himself badly.

New York beats the cities of the world in the length of its street railway tracks. If in one single track its surface, elevated and subway system would extend in a straight line of 1,018 miles.

American literature is found in every Canadian home, writes Consul Seyfert from Stratford. The village and city libraries are filled with American books and American periodicals predominate.

## HICKS MAKES ANOTHER GUESS

Not Disheartened at Dismal  
Failure For Month of May  
He Has Tried Again.

According to His Report Every-  
thing Will be Stormy—Then  
Another Drouth.

Hicks and other weather prophets made such a dismal failure of it in May, that they lost caste with most people who take stock on long distance guessing. However, if for no other reason, for purpose of comparison, it may be interesting to read how Hicks figures it out for June and then watch the weather and see how close he comes to or how far he comes from hitting it.

He says the month will be ushered in with rain, wind and thunder storms lasting to the 3d. On the 6th, 7th, and 8th there will be a reactionary storm with falling barometer, rising temperature and decided electrical storms of rain, wind and thunder followed by decided change to colder from the 8th to the 10th, beginning, of course, in the northwest.

A regular storm period reaches from the 11th to the 16th. Look for severe storms about this period. The crisis of this period will fall within 48 hours of sunset on the 12th, culminating on the afternoon and night of the 5th. General and destructive hail will be a feature of these disturbances, with cloud bursts and possibly tornadoes.

A reactionary storm period centers on the 18th to 21st and will bring changes of barometer, temperature, humidity and wind currents, causing an excess of lightning and thunder if not a series of cloudbursts and solstice rainstorms.

The same is true of a like period centering on June 6th, a fact we should have mentioned in connection with that period. During these June nights, especially through all the central storm periods, and overlapping from one period, to another, expect many brilliant displays of atmospheric electricity, illuminating the heavens with constant, but usually very harmless flashes.

The regular storm period runs from the 23d to the 27th, with high probabilities that little if any cessation of disturbances will come between this and the period immediately preceding it. As this may be from about the 23d to the 27th, we will set down as a period of general, if not violent and dangerous disturbances.

A reactionary storm period is central on the 29th and 30th. Falling barometer, very high temperature and energetic thunder, rain and hail storms are more than probable on and touching that date.

Weather Prophet Foster gives out the following bulletin:

The last disturbance of May will reach the Pacific coast about the 25th, cross west of Rockies by close of the 26th, great central valleys 27th to 29th, eastern States 30th. Warm wave will cross west of Rockies country about 25th, great central valleys 30th, eastern States June 1st.

I expect drouth to begin in June that will be increasing interest to corn growers and dealers. It will also have some effect on oats and grass.

Cold weather of June, July and August will be of greater importance than any that has occurred since the year 1901.

## WILL SUFFER A HEAVY REDUCTION IN SALARY

In making the transfer from Valparaiso, Chile, to Lucerne, Switzerland, Robert E. Mansfield, of this city, will suffer a reduction of \$1,000 in salary. The Valparaiso consulate pays \$4,500 a year and the Lucerne place \$3,500 a year, but the latter is much the preferable one in every respect. Mr. Mansfield will return to Indiana before sailing to his new post, in July.

**THE MINING SITUATION**  
 Within a Fortnight All the Indiana  
 Mines Will Be Reopened.

Indianapolis, Ind., June 1.—Several coal operators here today said that practically all the mines in Indiana will be opened within the next fortnight. Some of the operators who returned from Terre Haute said that the conference between the operators and miners would result in a settlement on the basis of the 1903 scale but with important concessions to the employers. They were evidently sure that a settlement will be reached and the mines reopened, for some of them said they were preparing to renew contracts with their old customers on the basis of the scale of 1903. Only a few sliding contracts have been made, as not many consumers wanted to take the risk. It is very likely that the next two or three weeks will witness great activity in the renewal of contracts. In spite of the long shut-down at the mines, very few of the large consumers have suffered for want of fuel. In fact, the largest ones have enough to last them for two or three weeks, even if the mines are not reopened in Indiana.

The attack of Wm. Randolph Hearst on T. Taggart because the latter appointed a subcommittee to co-operate with the national congressional campaign committee, has caused a stir among Indiana politicians. It brought the following statement from Taggart today: "The committee was appointed after a conference with Chairman Griggs," he said. "I received the following telegram from Mr. Griggs: 'Our campaign committee meets at Munsey building, Washington, at 8 o'clock Thursday evening. Your committee is invited to meet with us. Would be glad to have you all. J. M. Griggs.' The day before I received this telegram I received a letter from Mr. Griggs saying that he hoped the

meeting could take place before he went South. I have not read the personal attack made on me in the Hearst newspapers. I do not know what Mr. Hearst's purposes may be. However, I have never bothered Mr. Hearst, and I do not care to drag personal matters into the campaign. Not a soul has any control over the members of the advisory committee or the national committee except the members of the national committee and the Democratic party. Wall street nor any other street has anything to do with the advisory committee, which was organized for no other purpose than to elect a majority of representatives in congress."

Alonzo Greene Smith, ex-attorney general and one of T. Taggart's chief Greene Smith, former attorney general and one of Thos. Taggart's chief lieutenants, said today that the Democratic state convention will declare for Bryan for president. Other leaders expressed the same views. From what could be learned Bryan will not only be endorsed for president, but his name will be used as far as possible in an attempt to rally the disorganized party hosts under one banner. The platform as now contemplated will declare for tariff reform as the best means of curbing oppressive corporations and equalizing the cost of living. Strict but just enforcement of the law will be demanded, and there will also be a plank demanding the repeal of the metropolitan police law. The platform will be brief but pungent in dealing with local issues. None of the party leaders here are in favor of declaring for high license for saloons. Chairman O'Brien is to remain until after the convention. The committee consisting of M. A. Ryan of Indianapolis, James K. Risk of Lafayette and Peter J. Coyle of Peru, appointed some time ago to make arrangements for the convention, will have a meeting here Saturday night.

Congressman Charles A. Towne of New York may address the Democratic state convention next week. Senator Bailey was invited to address a mass meeting at Tomlinson hall the night before the convention, but he will probably be unable to attend. Congressman Towne will be welcomed here, as he is a favorite speaker with Indiana Democrats.

Gilbert Hendren of Bloomfield, formerly Second district chairman, while here today announced that the name of Joe Moss of Linton will be presented to the Democratic state convention for the nomination for treasurer of the state. Moss is now treasurer of Greene county and is one of the strongest men in his district.

**Conferees Agree.**  
 Washington, June 1.—Conferees on the army appropriation bill have come to a complete agreement and the report will be made to the house and senate today. The senate amendment appropriating \$1,000,000 for the participation of regular soldiers in maneuvers and exercises with the state militia was agreed to.

**Liable to the Death Penalty.**  
 St. Petersburg, June 1.—The trials by court-martial of Admirals Nebogoff, Grigoroff, Smirnov and subordinate unwarmed naval officers for surrendering to the Japanese in the battle of the sea of Japan will begin this week. The accused officers are liable to the death penalty.

**Shot Wife and Killed Himself.**  
 Terre Haute, Ind., June 1.—Wm. Bowne, who formerly conducted a saloon in this city, which he sold two weeks ago, went to Champaign, Ill., where he shot and slightly wounded his wife, after which he committed suicide with a bullet through his brain.

**CHILDREN'S SHOCKING DEATH**  
 Three Entrapped in a Trunk Perish of Suffocation.  
 Kankakee, Ill., June 1.—Missing for several hours, three girl children, aged eight, six and two years, daughters of Mr. and Mrs. Adelord Vanslette, were found smothered to death, sitting upright, in an old trunk. The circumstances of the deaths are mysterious, owing to the fact that the oldest of the three was large and strong enough to have easily raised the lid of the trunk.

Mr. Vanslette is a teamster. Ten children comprised his family, including the three. Search had been made everywhere, according to the mother's story. Then, by mere accident, she saw a tray of the trunk—an ordinary

sized affair—on the bed. Suspecting that the children might have crawled into the trunk, she raised the lid. She was horrified by the sight that met her eyes. The three missing children were seated upright in the trunk. Apparently they had made no struggle or effort to release themselves, and the mother was too frightened to recall whether or not the clasp had caught. The mother thinks the children crawled into the trunk while playing and that the trunk accidentally locked itself. The clasp, however, is not of the self-locking kind.

**REALISTIC PLAY**  
 Child Burned to the Stake by Children Emulating Red Men.

Montgomery, W. Va., June 1.—The five-year-old child of Robert Maroney of Cedar Grove, Kanawha county, was tied to a stake and burned to death by playmates who were emulating the characters in a mock initiation of the Red Men recently presented by members of the local lodge in the public hall at that place. The children, the oldest of whom is about ten, were arrayed like Indians, and the little Maroney child, who was the "paleface," was seized and bound to a fencepost. A quantity of shavings were placed about its feet, saturated with oil and lighted, the flames communicating with the child's clothing, and in a moment the little body was wreathed in flames. The other children, realizing what they had done, struggled manfully to tear away the burning material, and did rescue the child while still alive, but it almost immediately succumbed to its injuries.

**Baseball Scores.**  
 National League—At Brooklyn, 1; Boston, 0. At Cincinnati, 3; Chicago, 8. At Philadelphia, 5; New York, 1. At Pittsburgh, 3; St. Louis, 0.  
 American League—At Detroit, 4; Chicago, 2. Second game, Detroit, 6; Chicago, 4. At Boston, 2; Washington, 9. At Cleveland, 3; St. Louis, 4. At New York, 7; Philadelphia, 3.  
 American Association—At Minneapolis, 2; St. Paul, 5. At Kansas City, 6; Milwaukee, 4. At Columbus, 2; Louisville, 3. At Indianapolis—Rain.

**Convention Still Tied Up.**  
 Nashville, Tenn., June 1.—The Democratic state convention which has been in session here for the past three days is still waiting for the report of the committee on credentials. Meanwhile, in the uproar over contested delegations and temporary organization, the questions of a permanent chairman and a platform appear to have been sidetracked.

**Berwind Coming Home.**  
 Paris, June 1.—Edwin J. Berwind, president of the Berwind-White Coal Mining company, has sailed for New York from Cherbourg on the North German Lloyd steamer Kaiser Wilhelm Der Grosse. He resolutely declined to make any statement regarding the testimony given at the interstate commerce meeting at Philadelphia.

**Will Wait on Higher Court.**  
 Boise, Idaho, June 1.—It has been definitely decided by the attorneys for the defense in the Moyer-Haywood-Pettibone cases that pending the United States supreme court decision, they will take no further steps. The cases will not come to trial before the end of the year.

**Woman Guilty of Manslaughter.**  
 Wooster, O., June 1.—A jury here found Mrs. Edna Morehouse guilty of manslaughter. The specific charge was that she administered morphine to Otha Baker, an infant. The poison was alleged to have been contained in a patent medicine in common use for infants.

## AN EARLY REPORT

There Will Be No Further  
 Delay on the State-  
 hood Bill.

### FORAKER AMENDMENT

Will Be Reported Out of Conference Exactly as It Was Proposed a Year Ago.

Statehood For Oklahoma, the People of Arizona and New Mexico to Vote on Theirs.

Washington, June 1.—The Republican managers in the house state that the conference report on the statehood bill will be made today or, at the latest, Saturday. This report will be an agreement on the basis of the Foraker amendment of a year ago, which provides that the people of Arizona and New Mexico may vote on the question of joint statehood at a regular election held there for the purpose of electing a delegate to congress. The amendment is to be reported exactly as it was introduced a year ago by Mr. Foraker in the senate. At yesterday's session of the conference committee it was agreed that Guthrie should be made the new capital of the state of Oklahoma until 1915 with certain restrictions as to the amount of money which may be expended prior to that date. At that time a vote is to be taken for the selection of a capital site.

### DILATORY TACTICS

Democrats Continue Their Filibuster in the House.

Washington, June 1.—The Democrats of the house resumed their filibustering tactics yesterday and demanded roll-calls on every possible parliamentary point. Notwithstanding these tedious delays the house passed the diplomatic and consular appropriation bill, carrying an appropriation of \$2,734,869. A number of amendments were adopted, chief among which were changing the salary of the ambassador to Japan from \$17,500 to \$12,000 and fixing the salaries of the ministers to Belgium, The Netherlands and Luxembourg at \$10,000 per year instead of \$12,000, as fixed by the bill which was originally reported. The legislative, executive and judicial appropriation bill and the postoffice appropriation bill were sent to conference.

The senate passed the Knox immunity bill and the omnibus lighthouse bill; with practically no debate passed the military academy bill, and was only prevented from passing the employers' liability bill by a motion to go into executive session. Most of the afternoon was devoted to consideration in executive session of the nomination of Judge James Wicksham to be judge of the United States circuit court for the district of Alaska, but he was not confirmed. The charges against him have prevented confirmation for three years. He is serving on a recess appointment.

### SUBSTITUTES PROPOSED

Mr. Crumpacker Does Not Like Meat Inspection Measure.

Washington, June 1.—Representative Crumpacker of Indiana has introduced a bill as a substitute for the Beveridge meat inspection amendment placed on the agricultural bill in the senate. The bill defines the authority which may be vested in the secretary of agriculture and lifts the authority so as not to conflict with the police powers of the state. In accomplishing the adequate inspection with this restriction, provision is made whereby the secretary of agriculture may accept the inspection of state inspectors as to the sanitary condition of packing houses. Where opposition is made on the part of packers, which would make the state inspection inadequate, the secretary of agriculture is authorized to stop all meat products at state lines and make a thorough inspection. Where the state inspection is accepted by the secretary, this federal inspection in transit will not be made. Certain labels and tags to denote the character of the state inspection are provided for use.

Mr. Crumpacker believes that the Beveridge amendment in authorizing federal inspection of packing houses is a violation of the police powers of the state and that all the rulings sustain this position.

**Slowly Getting Together.**  
 Washington, June 1.—There are but eleven amendments in the railroad rate bill yet to be disposed of by the conferees of the senate and house. Of the amendments considered the senate has receded on but three, while the house conferees have accepted thirty-nine. Those on which the senate has receded are all of minor importance and are regarded as not affecting the bill in any way. The amendments still in dispute include the express company amendment, those relating to oil and the ownership of producing properties by common carriers, the anti-pass amendment, the sleeping-car provision, "Jim Crow" cars, the bill of lading provision, the retention or rejection of the words "in its judgment" and "fairly remunerative," and the sidetrack amendment.

## PEOPLES' COLUMN

Under this head we will print short discussions of public questions and timely topics, but the Republican will not be responsible for the opinions expressed—they are the opinions of the writers and not of the Republican. Nothing of a libelous nature or personal reflection will be printed. The writer must confine themselves to the question discussed. While the articles may be signed by a nom de plume, the name of the writer must be signed for identification.

### Not all of Orange to be Classed With the "Insurgents".

The spirit that calls for these lines has been prompted by articles appearing in the Republican of recent date relative to the cause that led to the abandoning of the Orange postoffice. Ordinarily such articles are not calculated to contain objectionable matter worthy of notice, but in this case a wholesale tirade of abuse was indulged in, the like of which seldom comes from any one with good judgment. Such language was intended to make rural route patrons uncomfortable in mind, to say the least, even some of those who stood by the lost cause through its long struggle for life, are not willing to approve the spirit manifested in the articles.

There was a cause for the abandoning of the postoffice and the rural route people may come in for their share, but I am inclined to think that what hastened its death was an over-dose of medicine, administered by its friends. A kind of a homeopathic remedy was applied as a last resort.

The author's identity was not disclosed but no one familiar with the tone of the article would fail to discover that they came from the pen of our lately deposed postmaster. Such persons unusually have an accumulation to work off on any person or persons who may have in any way contributed to their discomfiture.

Persons whose names appear on R. F. D. boxes in Orange and vicinity, may be classed as so called "feeble-minded men and women," (not a very happy thought to contemplate to be sure,) but yet they are assured that the free mail delivery business is no respecter of persons, and even "thick headed" farmers are embraced in that invitation. If the writer of the article will investigate, I think he will find that the so-called "unlawful boxes" that were erected within a half mile of Orange, was done at a time before the late law was enacted.

The postoffice had many friends, (and if it ever had an enemy the postmaster in his anxiety may have made some), that stood by it until the 14th inst. Some thought the correct thing to do was to take rural route service system of their own, and rather boast of their independence. There certainly can be no impropriety in any number of persons banding themselves together for better mail service, if done in a proper spirit, but if done through spite or revenge, it can be called by many names. It seems that they are cleaving to a bad philosophy if they expect to get their office restored by such procedure.

A Friend of Postoffice.

### CATARRH A GERM DISEASE

Breathe Air Medicated by Hyomei and Kill Catarrh.

Now that physicians and scientists universally agree that catarrh is a germ disease, the reason for the failure of the old-fashioned stomach-dosing in this trouble is readily seen. Prior to the discovery of Hyomei, a treatment which cures catarrh by filling the air you breathe with germ-killing and healing medication, statistics showed that at least ninety-seven out of every hundred persons in this state were suffering from catarrh of some form.

The treatment with Hyomei is very simple and pleasant; a small inhaler comes with every outfit and three or four times a day Hyomei is breathed through this, making the air at that time like that found on the mountains where the pine forests give off their fragrant and healing balsams.

The complete outfit costs but one dollar, while extra bottles can be obtained for 50 cents. F. B. Johnson has seen such remarkable results from the use of Hyomei that he sells it under an absolute guarantee that it costs nothing unless it cures.

### LAWN FETE

Quite a number of our citizens saw the Indians defeat the Connersville ball team.

The Memorial services at the U. P. church were well attended considering the busy season. The people should be willing to lay aside the duties and pleasures of daily life to remember those who have lain down their lives that we might have the privileges of enjoyment and prosperity. The following program was rendered: Singing of America, Prayers was offered by Rev. Cooke. The choir sang the song entitled "Old Glory". After which Rev. Cooke delivered a very appropriate address. He spoke about the day and what it should and does mean to us. The place the G. A. R. have in the world, the home and how it fortified and sustained the men in the field; he revived the history of U. S. and gave its place in the history of the world. He paid a great tribute to the old veterans while he complimented them for succession, the greatest of all wars; and pointed them to God as their leader which would lead them to a better and greater victory—the victory over death and the grave.

He also spoke of God's kind and providential care over our nation which has brought us to our present prosperity and success. After singing the song, entitled "Strew the Graves" the audience repaired to the cemetery where the graves of the departed soldiers were very appropriately decorated. The Odd Fellows and P. O. S. of A. also observed Memorial day.

### WORKING THE ROADS IS A LARGE JOKE

George Ade, the Humorist, Deals the Road Supervision a Hard and Merited Jolt.

George Ade, the famous writer and humorist, and an Indiana farmer, is sojourning in Egypt, the land of the long ago, where the farmers still do work as they did 5000 years ago, and where they still "work the roads" as they did when Cheops built the pyramids. Mr. Ade has discovered another country where they work the roads as they do in Indiana, and he writes on this subject as follows:

The outlying districts of Egypt are supposed to be absolute non-progressive. This is a mistake. While driving out from Assiut to visit another cheerful cluster of tombs we came upon a large gang of workmen engaged in "improving" the road. As soon as the carriage ahead of ours struck the improved road it turned turtle, and for a moment the air was full of jumping tourists. Our conveyance started over the improved section, but nired down, so we got out and walked until we came to an unimproved road, and then we jumped in and sped nerrily on our way. I stopped for several minutes to watch the men at work, and I was deeply impressed by the fact that herein this heathen land, here they had no normal schools or farmers' institutes to guide them, no agricultural weeklies to beacon them out of the darkness, the simple children of the Orient were "improving" the roads just as I had seen them improved during my boyhood days in Indiana. In other words, they were scooping dirt out of the ditch on either side and dumping it in tall, unsurmountable hillocks right in the middle of the roadway. The most hydrocephalous Township Supervisor in the whole Middle West could not have done a more imbecilic job.

In Indiana every voter is required to "work the roads" or pay a road tax. Of late years, under intelligent direction, the highways have been vastly improved, but there was a time when "working the roads" was a large joke. To avoid paying the tax the farmer would have to go out with a team and do something to a public highway. Usually he selected a road which he would not traverse in going to town, and he would plow it up and "scrape" it into hollows and leave it looking like a sample of the Bad Lands of Montana. As soon as the tax was "worked out" he discontinued the improvement. After two or three days of "working" a fairly bad road could be made altogether impassable. If I were a military commander and had to execute a retreat and cut off my pursuit by a superior force, I would have a corps of flatheaded township supervisors bring up the rear and "work" the roads.

Don't forget to go to Winship's to buy your buggies. 29c

The heavy mortality rate, due to Bright's disease, will be largely reduced when the public in general, becomes acquainted with the success the osteopathy has in the treatment of kidney disease. You may rest assured that there is a cause for your lame back. The best way to remove the condition is to remove the cause and nature will restore to health. Osteopathy always removes the cause of disease.
